Dear Mr. Caton:

On March 5 and 6, 2002, on behalf of Ronan Telephone Consumer Advisory Committee ("Ronan Consumer"), Jay W. Preston, Cynthie Preston, Linda West, Thomas Trickel, Chuck Evilsizer, and I, James U. Troup, met with members of the Federal Communications Commission. The representatives of Ronan Consumer met with Commissioner Kevin J. Martin, Sam Feder, Senior Legal Advisor to Commissioner Kevin J. Martin, and Matthew Brill, Common Carrier Legal Advisor to Commissioner Kathleen Abernathy on Tuesday, March 5, 2002. The representatives of Ronan Consumer met with Kyle D. Dixon, Legal Advisor to Chairman Michael K. Powell on Wednesday, March 6, 2002.

As summarized in the attached memorandum, we discussed the Multi-Association Group plan for the regulation of interstate services of non-price cap incumbent local exchange carriers and interexchange carriers, as well the Bill & Keep proposals in the Unified Intercarrier Compensation Regime docket. In regard to the Universal Service Fund and Truth-in-Billing, it was noted that some interexchange carriers may be overcharging their customers.

Pursuant to 47 C.F.R. § 1.1206, an original and seven copies of this letter and the attached memorandum are provided. Please associate the original and one copy with CC

On March 5 and 6, 2002, on behalf of Ronan Telephone Consumer Advisory Committee (“Ronan Consumer”), Jay W. Preston, Cynthie Preston, Linda West, Thomas Trickel, Chuck Evilsizer, and James U. Troup, met with members of the Federal Communications Commission. The representatives of Ronan Consumer met with Commissioner Kevin J. Martin, Sam Feder, Senior Legal Advisor to Commissioner Kevin J. Martin, and Matthew Brill, Common Carrier Legal Advisor to Commissioner Kathleen Abernathy on Tuesday, March 5, 2002. The representatives of Ronan Consumer met with Kyle D. Dixon, Legal Advisor to Chairman Michael K. Powell on Wednesday, March 6, 2002.

The representatives for Ronan Consumer presented to the FCC their position that, from the perspective of rural consumers, there is no benefit derived from the MAG Order (CC Docket No. 00-256) and the Bill & Keep proposals (CC Docket No. 01-92). Rather, the MAG Order and the Bill & Keep proposals are detrimental and pose serious disadvantages and, therefore, Ronan Consumer opposes them. Ronan Consumer advocated that a new policy direction is necessary so as to provide benefits to rural America and to truly promote universal service.

Ronan Consumer provided details of the significant opposition in the Ronan community to the MAG Order and the Bill & Keep proposals. Ronan sent out post cards to poll the community and of the post cards that were returned (over one-third), 100 percent of them opposed the MAG Order and the Bill & Keep proposals. There is also significant local government opposition to the proposed policies. Resolutions of Opposition were adopted unanimously by the following local government entities: Tribal Counsel of the Confederated Salish and Kootenai Tribes of the Flathead Nation; The City Council and Mayor of the City of Ronan; and, The Lake County Commission. Furthermore, the Montana Congressional delegation is in opposition as evident in letters submitted prior to the MAG Order from the following lawmakers, including Congressman Rehberg; Senator Burns; and, Senator Baucus.

The FCC's decision and proposals include the following: an 85% increase in the residential SLC charge; a 53% increase in the business SLC charge; a 52% decrease in the aggregate carrier access charge (4.6 to 2.2 cents); the creation of a huge new federal subsidy program called the Interstate Common Line Support ("ICLS"); and the Bill & Keep proposals in the Unified Intercarrier Compensation docket that seek to eliminate all carrier access charges.

Ronan Consumer described the major detrimental impacts in rural areas due to the FCC's decision and proposed policies. There will be severe impacts on the affordability of basic local telephone service. There will also be a decrease to rural company revenues from carrier access charges, and if Bill & Keep is imposed, there will be the complete elimination of this source of revenue, which is 60-70% of the total rural company revenues.

The goals of universal service in rural areas will be detrimentally affected, with the impact being especially severe in low-income areas. For example, the Flathead Indian Reservation, a struggling agricultural economy with many low and fixed income residents, as well as high unemployment levels, has a per capita income of only \$17,000. The SLC increases and potential rate increases from the access decreases are not affordable in the Ronan Consumer service area and many people may have to terminate their telephone service.

There will be a failure to support the rural wireline infrastructure, which is essential to the rural economy and continued universal service (affordable basic service). The FCC's actions will severely discourage any future investments in existing facilities, not only for upgrades, but even for basic maintenance.

The MAG Order creates a huge, new subsidy system ("ICLS") on top of the already existing, huge USF subsidy system. ICLS, which is derived from access charges below cost, is uneconomic, inefficient, and politically unpopular and unstable in the long run.

The decrease in access charges will be *below cost levels* and is not justified. For example, the average Montana rural cost per FCC cost model is 8 cents per minute, while the MAG Order requires an average of 2.2 cents per minute, which is recognized, but not explained or justified in the MAG Order. Offering service below cost to other carriers (some of which are local competitors, such as competitive local exchange carriers and wireless providers) is economically inefficient, illogical, unreasonable, and contrary to the requirements of the Telecommunications Act and the U.S. Constitution.

The long distance carriers will see a windfall of \$900 million from the MAG Order and rural customers will see none of the benefits.

The access decreases and/or the Bill & Keep elimination of 60-70% of revenues will result in substantial local phone service rate increases being sought at the state level.

Such local rate increases would be politically impossible for state commissions to approve. A Bill & Keep system would lead to a radical transformation of the telecommunications industry, inappropriately shifting huge costs from carriers and competitors to end-users, to the severe detriment of the preeminent state and federal policy goals of universal service, including affordable basic telephone rates. The Bill & Keep system would also eviscerate investment incentives for rural companies.

Also, in relation to the USF proceeding (CC Docket Nos. 96-45 and 98-170), it was noted by Ronan Consumer that interexchange carriers may, in fact, be overcharging customers through the USF contribution charge.

As rural consumers who have studied telecommunications issues, Ronan Consumer sees absolutely no benefit to the MAG Order or the Bill & Keep proposals, but only serious disadvantage and detriment. Ronan Consumer urged the FCC to take a new policy direction as it is necessary to move in a positive direction that will provide benefits to rural America and truly promote universal service.

OFFICE OF THE SECRETARY

**RE: OPPOSITION TO FCC MAG ORDER and UNIFIED INTERCARRIER COMPENSATION ("Bill & Keep") NPRM**

• **Severe impacts in rural America. A new policy direction is needed.**

FCC Decisions:

- Subscriber Line Charge increase of 85%
- Carrier access charge decreases of 52% (4.6 cents to 2.2 cents)
- Creation of a huge new Federal subsidy program "Interstate Common Line Support" (ICLS)
- "Bill & Keep" proposals in "Unified Intercarrier Compensation Docket" which would eliminate all intercarrier compensation.

• **Overwhelming Community Opposition**

- The Tribal Council of the Confederated Salish and Kootenai Tribes of the Flathead Nation
- The Lake County Commission
- The City Council and Mayor of the City of Ronan
- One Third of Community returned Post Cards in Opposition to MAG & "Bill & Keep"

• **Entire Montana Congressional delegation and Others from both Parties supported a further review of the MAG proposals, among who include:**

- Senator Max Baucus, (D) MT
- Senator Conrad Burns, (R) MT
- Congressman Dennis Rehberg, (R) MT
- Senator Tom Daschle, (D) SD
- Senator Chuck Grassley, (R) IA
- Senator Byron Dorgan, (D) ND
- Senator Craig Thomas, (R) WY
- Senator Blanche Lincoln (D) AR

**TOPIC OUTLINE**  
**RONAN TELEPHONE CONSUMER ADVISORY COMMITTEE**  
**March, 2002**

● **Major Rural Impacts from FCC Policy:**

- Severe impacts on affordability of basic local telephone service.
- Drastic decreases to rural company revenues.
- Directly Contrary to Universal Service goal in rural areas:
  - Especially severe impact in low income areas and Indian Reservations
  - Economically depressed areas are hardest hit
  - Very low per capita incomes; high unemployment levels
- Decreasing access charges *below cost levels* is not justified. Offering service below costs to other carriers (some of which are local competitors, such as CLECs and wireless) is economically inefficient, illogical, unreasonable, and contrary to the requirements of the Telecommunications Act and the Constitution.
- FCC actions will fail to adequately support the rural wireline infrastructure with compensatory rates, which is essential to:
  - Maintenance and improvement of the infrastructure
  - New and advanced services
  - The rural economy
  - Affordable basic telephone service, universal service goals
- MAG Order creates a huge new subsidy system on top of the huge existing USF subsidy system, contributing to its long term political instability.
- Long distance carriers will see a windfall of \$900 million from MAG. Rural consumers will see *none* of this benefit. And, IXC's may in fact be over-charging customers through the USF contribution charge.

**SUMMARY:**

As rural consumers who have studied telecommunications issues, the Ronan Consumer Advisory Committee sees absolutely no benefit to the MAG order or the Bill & Keep proposals, but only serious disadvantages and detriment. A new policy direction is necessary to move in a positive direction, which will provide benefits to rural America and truly promote universal service.

OF THE FLATHEAD NATION**

**A RESOLUTION SUPPORTING THE RONAN TELEPHONE CONSUMER  
ADVISORY COMMITTEE'S EFFORTS OPPOSING THE FEDERAL  
COMMUNICATIONS COMMISSION MAG ORDER AND FEDERAL  
COMMUNICATIONS COMMISSION BILL AND KEEP PROPOSAL**

**BE IT RESOLVED BY THE TRIBAL COUNCIL OF THE CONFEDERATED  
SALISH AND KOOTENAI TRIBES THAT:**

**WHEREAS**, the Ronan Telephone Consumer Advisory Committee is a volunteer community organization dedicated to representing consumer interests on telecommunications issues in the Ronan and Flathead Indian Reservation area; and

**WHEREAS**, the Ronan Telephone Consumer Advisory Committee has advised the Confederated Salish and Kootenai Tribal Council of its efforts on behalf of consumers to protect affordable telephone service in the Ronan area, and the action and proposals of the Federal Communications Commission (FCC) which threaten affordable telephone service and the continued viability of the local telephone company; and

**WHEREAS**, the Ronan Telephone Company Consumer Advisory Committee sent letters informing the residents and businesses of the community regarding the FCC action which are increasing local telephone rates and received 981 reply post cards opposing the FCC action and supporting the Committee's efforts, which constitutes one-third of the Ronan/Pablo community; and

**WHEREAS**, the FCC adopted the "MAG Order" on November 8, 2001, which will drastically increase local telephone rates by increasing the "Subscriber Line Charge" on consumers' bills by 85% (from \$3.50 to \$6.50), and increasing the total charge for local service by 39%; and which also decreases the revenues the local company receives from other companies to complete calls in the local area, thereby adversely affecting the company's revenues and creating pressure for further rate increases (FCC Order No. 01-304); and

**WHEREAS**, the FCC has adopted a "Bill and Keep" proposal which proposes to completely eliminate traditional inter-carrier compensation mechanisms, which provides approximately two-thirds of the local company's revenues (FCC NPRM 01-132 in Docket 01-92); and

**WHEREAS**, revenue losses by the local telephone company and drastic local rate increases are directly contrary to state and federal policy directives which are intended to assure affordable and quality telephone service in rural areas, and the consumers on the Flathead Indian Reservation would be severely and adversely affected by such actions, many of whom are low-income or fixed-income households; and

**WHEREAS**, the economy and consumers of the Flathead Indian Reservation should not and cannot sustain the financial impacts ordered and planned by the FCC actions; **NOW, THEREFORE**,

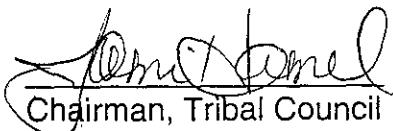

**BE IT RESOLVED** that the Confederated Salish and Kootenai Tribal Council does hereby express its full and unqualified support for the efforts of the Ronan Telephone Consumer Advisory Committee in opposing the efforts of the FCC, and in fighting the Federal efforts which would abandon rural Montana and drastically increase our local telephone rates, and the Tribal Council further expresses its strenuous opposition to the FCC "MAG Order" and its "Bill and Keep" proposal.

#### C E R T I F I C A T I O N

The foregoing resolution was adopted by the Tribal Council on the 12th day of February, 2002, with a vote of 7 for; 0 opposed; and 0 not voting, pursuant to the authority vested in it by Article VI, Section 1 (a), (c) and (u) of the Tribes' Constitution and Bylaws; said Constitution adopted and approved under Section 16 of the Act of June 18, 1934 (48 Stat. 984), as amended.

Ronan, Montana 59864

Dear Montana Congressmen, Conrad Burns, Max Baucus, Dennis Rehberg:

The Ronan Telephone Company Consumer Advisory Committee is an independent group of seven telephone consumers in the Ronan community who work with Ronan Telephone management to represent the consumer interest in national, state and local telephone policy.

We write to inform the Federal Communications Commission (FCC) and Montana's Congressional Delegation that we fully support the efforts of this Committee to preserve affordable, high quality rural telephone service here in Ronan. We are concerned that the so called "MAG" order has already increased the telephone bills of every resident and business in Ronan as of January 1, 2002, and that larger federally imposed telephone cost increases may be forthcoming.

In November of last year, the committee informed all Ronan telephone subscribers about the rate increase and the committee's ongoing efforts in opposition at the FCC. In addition, it sent out a reply forms to all telephone subscribers here in an effort to galvanize public opposition to the federal policies. They have received almost 1,000 of these signed cards back from consumers here, approximately one-third of the total sent.

We are concerned that the FCC decision to raise the "Subscriber Line Charge" (SLC) for all rural consumers as of January 1 of this year provides nothing to these consumers in return. Residential subscribers and businesses with a single line have now seen this item increase from \$3.50 per month to \$5.00 per month (a 43% increase); for businesses and institutions using multiple lines (including the City of Ronan), the charge has increased from \$6.00 per month per line to \$9.20 per month per line (a 53% increase). In addition, the residential and single line business SLC may be further increased on July 1, 2002 to \$6.00, and may be further increased to \$6.50 on July 1, 2003, which would be an overall increase of 86%. These rate increases will not result in improved service and rural consumers have no assurance that their long distance costs will decrease as a result.

While we are very concerned by this rate increase, we are even more alarmed by the policy direction the FCC is taking, of which this is the likely the first step, which will require our local telephone company, to eliminate all fees charged to all connecting carriers. The ultimate impact of this policy could raise local telephone rates by as much as 700% locally in Ronan, which is absolutely unacceptable.

November 14, 2001

Telephone Subscribers of Ronan Telephone Company

**RE: FCC Ordered Rate Increase & Call for Protest**

Dear Fellow RTC Telephone Consumers:

The Ronan Telephone Company Consumer Advisory Committee is a group of consumers that represents you, the consumers of Ronan Telephone Company. We are sending you this to request your input to help us represent you better, and to request your help in fighting an unjustified federally ordered rate increase.

The Federal Communications Commission (FCC) issued a decision on October 11 which will increase your telephone bill on January 1, 2002. Our committee has twice filed formal comments with the FCC opposing this rate change. We succeeded in enlisting the support of Senator Baucus, Senator Burns and Representative Rehburg asking the FCC to delay a decision in this case to allow further public input. The FCC ignored both the opponents to this process and the many Congressmen and Senators who supported a delay.

This decision will raise the federal residential Subscriber Line Charge by 43% and the multiple line business Subscriber Line Charge by 53%. The order also contemplates further increasing the residential fee by as much as 85% within two years.

Furthermore, the policy direction of this FCC indicates that this could be the first step in a longer process that will increase local telephone rates by as much as 700%.

We feel very strongly that our efforts to successfully advocate for continued affordable local telephone rates with the policymakers in Washington DC will be fruitless unless a large number of consumers join us in our protest!

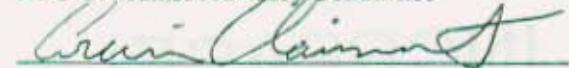

To this end, we have enclosed reply cards expressing our concerns to the key policymakers at the FCC and to our Congressional Delegation, in hopes of sending the message that real live consumers in rural communities like ours, nationwide, will be severely impacted by these radical policies. If you agree that affordable telephone rates are something you need preserved, please join our effort by signing the 2 enclosed cards and returning them to our Committee in the enclosed postage paid envelope. We will collect all cards returned and insure that the policymakers involved in these decisions are made aware of both our concerns and yours.

More detailed information about this rate increase are available from Bonnie Naffziger at Tech-Knowledgy Connection at 124 Main Street in Ronan and on our website at [www.rtccac.com](http://www.rtccac.com).

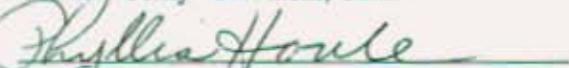

Please join us in our attempt to save affordable high quality telephone service in our Community!

Thank you!

I write to protest your decision on October 11 to raise my telephone bill by increasing the federal Subscriber Line Charge on January 1, 2002 (MAG decision). I support the efforts of the Ronan Telephone Company Consumer Advisory Committee, who represents me, a telephone consumer of **RTC**, in their efforts to participate in the policy making process to keep or rural phone rates affordable. In addition our consumer committee informs us that future policies the FCC is considering may raise our phone rates to levels no longer affordable if enacted. This is unacceptable policy making. *We ask that you reconsider your October 11 decision and that you give the public an open and timely opportunity to comment on future decisions that will raise my phone costs.* The practice of making decisions with FCC staff input and communications with special interests after the public comment period is closed must cease!

I write to thank you for requesting that the FCC delay the implementation of the MAG Plan. Unfortunately, the FCC ignored your advice and sent down a decision that will raise my telephone bill with no benefit to me or other rural consumers nation wide. I wish to inform you that I support the efforts of the Ronan Telephone Company Consumer Advisory Committee, who represents me, a telephone consumer of **RTC**, in their efforts to participate in the policy making process to keep our rural phone rates affordable. In addition to the decision to raise our phone rates on January 1, our consumer committee informs us that future policies the FCC is considering may raise our phone rates to levels not affordable if enacted. This is unacceptable! We ask that you use your influence to request that the FCC reconsider its October 11 decision and that you act to insure that the public can have an open and timely opportunity to comment on future decisions that will raise my phone rates. **LAKE COUNTY:**

- **Lake County suffers from chronic poverty, high unemployment and under-employment, Indian Reservation Problems, High Growth and an Influx of the Wealthy:**
  - Lake Co. is a poverty stricken area with annual per capita income just over \$17,000.
  - Unemployment has historically been 2% to 6% higher than the national average.
  - Most of Lake Co. is located on the Flathead Indian Reservation, which exacerbates all socio-economic problems.
  - Lake Co. has Experienced High Growth along with the rest of Western Montana.
  - The Presence of Flathead Lake has Proven to be a Lure for the Wealthy:
    - Property Values have been driven up beyond the reach of many locals.
    - This has caused a "Rich North Valley and a "Poor South Valley" Problem.
    - Consistent public policy is impossible with "Rich North" vs. "Poor South", this Problem is Exacerbated by the "Rich Whites" vs. "Poor Indian" problem.

**FLATHEAD INDIAN RESERVATION:**

- **The Flathead Indian Reservation is the Homeland of the Confederated Salish and Kootenai Tribes (CS&KT)**
  - The CS&KT has 6,800 Enroled Members, 3,700 of which Live on the Reservation.
  - The Flathead Reservation has over 11,000 Indians, largely because of the effects of Salish Kootenai College and the Flathead is Relatively Prosperous and has More Opportunities when compared with many Indian Reservations.

# Unemployment rampant on reservations

By ERIC NEWHOUSE  
Tribune Projects Editor

Poverty and unemployment mark Montana's Indian reservations, but the reservations also have a better support network than much of rural Montana.

"The predominant defining characteristic at Fort Peck is severe and unrelenting poverty," said a state report released Sunday. "It permeates every aspect of reservation life and dwarfs the poverty found in non-Indian rural communities."

"It creates an environment in which a whole array of social, psychological, health and other problems multiply," the report continued.

The only relief to the sustained poverty on Montana's reservations comes in the form of additional support: housing aid, federal health care and Bureau of Indian Affairs assistance.

As part of its statewide evaluation of the FAIM (Families Achieving Independence in Montana) program, Abt Associates Inc. took a close look at welfare programs on state Indian reservations.

It hired tribal employees to conduct interviews in person, rather than relying on phone interviews as it did throughout the rest of Montana.

The report cited state Labor Department statistics that unemployment rates on Montana Indian reservations ranged from 61 percent to 79 percent.

"We think those figures are low," said Ervin Carlson, a Blackfeet tribal councilman.

"There are very few opportunities for work here," he said. "Our biggest employers are the school district, the Blackfeet tribe, the Bureau of Indian Affairs and the Indian Health Service."

"There are very few businesses here, just a grocery store, a clothing store and a few others," Carlson added.

and that almost 53 percent made less than \$7 an hour.

"I don't doubt for a minute that unemployment figures are high," said Hudson, "but we see the work ethic of tribal members no less than any other Montanan."

"They are working about the same number of hours and at the same pay as other Montanans," he added. "Tribal governments, to their credit, have made a real effort to employ FAIM participants, and the wages in those cases may be better than minimum wage."

The average hourly wage on the various reservations varied sharply. The lows were \$5.67 and \$5.79 on the Rocky Boy's and Blackfeet reservations, increasing to \$6.08 on Fort Peck, \$7.80 on the Crow and \$10.20 on Fort Belknap. Montana's minimum wage is \$5.15 per hour.

While only 38 percent of the respondents on the Fort Peck Reservation made more than \$10,000 a year, that figure rose to 44 percent for the Blackfeet, 67 on Rocky Boy's, and 83 percent on Fort Belknap.

Furthermore, families are larger on the reservations. While 24 percent of the former welfare recipients in Montana's larger cities had more than three children, that figure rose to 37 percent on the Indian reservations.

More than half the families on the seven reservations received food stamps, compared to 43 percent of the families living in other rural areas of Montana," the report said.

Carlson defines poverty in one more way.

"A lot of our young people are down on the streets," he said. "They don't have jobs or anything to look forward to."

"So they're down on the streets, sitting and drinking alcohol," he said. "It's terribly sad to see."

Since there are so few jobs, six of the seven reservations have been excluded from a requirement to end welfare benefits after five years, a deadline that's rapidly approaching across Montana.

"A lot of our people are coming home to the reservation again because they just aren't able to make it out there," Carlson said.

"I would say we have been growing at about 3 percent a year due to the increasing number of people coming home," he said.

That merely increases the competition for the few jobs available, he said.

According to the report, only 5 percent of the former welfare recipients living on reservations were economically self-sufficient.

That figure ranges from zero on the Rocky Boy's Reservation to 3 percent on the Blackfeet, 6 percent on Fort Peck and 7 percent on Fort Belknap.

"Given the extremely high

rate of employment on the Indian reservations in Montana, it is startling that over half the surveyed family heads were employed at the time of the survey," said the report.

It explained that the survey was made in the summer, noting that the results might have been different in the winter.

Still, that surprised Carlson, who said he knew of few people getting off welfare on the reservations.

"Frankly, there's no incentive for people to get off welfare," he said. "The jobs are not there, and the wages are not good enough to live on."

"Welfare is sometimes our best opportunity, our greatest security," he explained.

In addition, many residents of the reservations receive subsidized government housing, public assistance from the Bureau of Indian Affairs, and health care from the Indian Health Service.

"They have a better social support network than the rest

of rural Montana," said Hank Hudson, director of the health department's Human and Community Services Division.

"They have better access to public housing and public health care," he explained.

"They also have a stronger cultural foundation," he added. "Many of our other clients don't have that network. They come to Montana without knowing any of the people."

But Carlson said public housing falls well short of demand these days on the Blackfeet Reservation.

"We have a waiting list of about 1,500 people waiting to get housing," he said. "There are very few homes being built, so our shortage is getting worse."

The report said that across all seven reservations, the average employed former welfare recipient worked eight months of the year.

It found that nearly 63 percent were employed full time

## **Confederated Salish and Kootenai Tribes –**

### **Flathead Indian Reservation**

#### **P.O.Box 278 – Pablo, Mt. 59855**

The Flathead Indian Reservation, home to the Confederated Salish and Kootenai Tribes, is the geographic area in question. Located in western Montana just south of Glacier National Park, the reservation, at 1.2 million acres, encompasses most of Lake County and parts of Sanders, Flathead, and Missoula Counties. 24% of the reservation's 26,507 residents are Native American (2000 U.S. Census). Of the 6,800 enrolled CSKT tribal members, 3,700 live on the reservation. The reservation is also home to tribal descendants and members of 32 other Indian tribes (DHRD 2001). Total Indian population is estimated to be approximately 11,339 (Montana FAIM evaluation – State of Montana – DPHHS – 2001).

A recent GAO report (*Telecommunications: Characteristics and Choices Of Internet Users*, February, 2001) and a series of U.S. Department of Commerce studies (*Falling Through the Net*, 1995, 1999, 2000) on Americans' access and use of technology show that although more Americans now own computers, minority and low-income households in inner cities and rural communities are still far less likely to have computers or online access to the Internet and know how to use advanced technology than users of more affluent households. Although the numbers of Americans who have access to computers

and know how to use the Internet are increasing, the recent reports show that the ``digital divide" persists for low-income, minorities and non-English speaking children and adults. This is certainly true of the Flathead Indian Reservation, most of whom do not have telephones and or computers in the home, do not have friends or family with computers, have never used the Internet, and are unfamiliar with basic computer applications. Many reservation residents do not have telephones (DHRD – 2001 – Job survey) and are not able to budget for the monthly fees.

The Flathead Indian reservation is considered an economically distressed rural community. If you evaluate the CSKT on reservation population, 48% access poverty based programs at least once a year (childcare assistance, commodities, low income energy assistance, Tribal welfare<sup>1</sup>). Eighty-percent of the jobs in the local area require computer skills and the ability to perform identified applications, yet there are no computer training programs in the area (DHRD, 2001) and access to phone lines and computers affects the employability of enrolled Tribal members.

Although 95% of the nation's schools are now equipped with classroom computers,<sup>2</sup> Flathead Reservation schools have not fully caught up with this trend, nor have the schools made computer technology accessible to the reservation public. Furthermore, there are no after-school programs on the reservation, despite the reservation's high number of latchkey children.

The Flathead Reservation historically has had higher annual unemployment and poverty rates than Montana and the nation. The 1990 U.S. Census reported a 17.9% unemployment rate for Native Americans living in Lake County. However, a more thorough study conducted in 1995 by the BIA estimated the rate to be 49%. Both numbers are extremely high when compared to the Montana and national rates of 4.9% and 4.0% respectively (MT DOLI, 2000). Recently, the State of Montana welfare evaluation found that unemployment on the Flathead Indian Reservation is 41% (ABT evaluation – State of Montana DPHHS – reported on 2/11/02 – Great Falls Tribune).

The incidence of poverty among Native Americans on the reservation is 30.4% (1990 U.S. Census). The reservation's child poverty rate is 28.9% (2000 U.S. Census). The 1997 BIA Labor Force Report documented that 37% of employed Tribal members were living in poverty. More recent reports indicate that 48% of the enrolled Tribal membership accesses poverty based programs<sup>3</sup> at least once a year. The effects of poverty are most severe when generational in character, and generational poverty is closely correlated with low rates of literacy as well as limited access to computer technology. Many Indian residents of the reservation are third or fourth generation welfare recipients for whom poverty has been a life-long experience.

In addition to poverty, the project's target population suffers from extremely high rates of domestic abuse and homelessness. DHRD data indicate

that 45% of the families enrolled in its programs have experienced domestic violence, and 60% have been homeless at one time or another. Many have experienced more than one period of homelessness within a year, where children were parceled out to extended families while the parents resided in cars or with friends.

In 1998, 94.67 out of 1,000 Lake County residents received food stamps, compared to 71.63/1,000 for Montana. In 1998, the Lake County TANF caseload was nearly twice the average state caseload (MT DPHHS). In 1999, Lake County transferred 50% of its TANF caseload to the new Tribal TANF Program, which has since served 470 unduplicated families.

Recent Tribal TANF Program data indicate that 50% of the caseload (enrolled CSKT Tribal members who seek services from the Tribes) does not read, comprehend or communicate at an 8<sup>th</sup> grade level. The statistics are similar for the Tribal General Assistance (GA) Program. Dislocated woods workers, representing about 230 families not currently served by either the Tribal TANF or GA Programs, show even more alarming deficiencies: 70% have obvious literacy issues and only 28% have either a high school diploma or GED (DHRD, 2001).

Twenty-three percent of Lake County residents do not have High School diplomas (1990 U.S. Census), and 50% of the reservation's current Adult Basic Education (ABE) student population is Native American. Many of these

individuals are also students at Salish Kootenai College, where 65% of entering freshmen do not have high school diplomas or GEDs. Additionally, over 80% of students enrolled in SKC ABE, the only ABE services available to CSKT members and descendants, enter with test scores below the 8<sup>th</sup> grade level (DHRD, 2001).

17% of the reservation's school age children and 15% of all 16-19 year-olds do not enroll in or attend school each year (1990 U.S. Census). This means that approximately 800 students on the reservation, most of them Indian, do not attend school and are missing out on basic literacy, math and reading. Tribal officials believe the actual number is higher, since so many children skip from school to school before leaving entirely and are not counted as dropouts.

Most of the families targeted in the service area reside in the Ronan Pablo School District, the reservation school district with the highest percentage of families eligible for the subsidized school lunch program (73% of Pablo students, and 56% of Ronan students). This district also has the most severe problems, including poor attendance, particularly among first and second graders. It is a Title I school district and designated a "low-performing" school. 22% of its students have limited English proficiency and 27% of its K-2<sup>nd</sup> grade students receive special education services (Ronan Pablo School District, 2001).

The Ronan Pablo School District is also the reservation district with the highest percentage of Indian students (56%). At least 50% of its enrolled kindergarteners are Native American, yet only one in three Ronan High School graduates is Native American (CSKT Education Dept., 1999). This reflects an

extremely high dropout rate, which occurs reservation-wide. There are seven high schools on the reservation, and there were over 290 graduating seniors in 1997. However, only 26 graduates were CSKT members.

Teen pregnancy rates are also correlated with low rates of literacy including computer literacy. A 15-year study conducted by the MT Department of Public Health and Human Services (DPHHS) revealed that Native Americans account for 22% of all teen births in the state, although only 6% of the state's population is Native American. The Montana Counties with the highest rates of teen pregnancies are all within reservation boundaries, and Lake County is no exception. Of the 330 births recorded in 1999, 47 or 14% were to teen mothers. The county's teen pregnancy rate in 1999 was 18%. 60% of the county's births that year were to Native American mothers, although it is not known how many of these were teens (MT Vital Statistics, MT DPHHS, 1999).

Enrollment data from Two Eagle River High School (TER) further indicate the need for family and computer literacy services for Native American teen parents residing on the reservation. TER serves 130-150 7<sup>th</sup>-12<sup>th</sup> grade students from across the reservation. 99% of its student body lives below the poverty level. The number of pregnant and parenting teens enrolled in the TER high school is as follows: 30, 97-98; 23, 98-99; 18, 99-00. Some of these teens have more than one child, and their dropout rate is about 50% (CSKT Education Dept., 2001).

Chronic unemployment, underemployment, poor self-esteem, and low educational success all contribute to generations of Native American families quitting the public schools and continuing the cycle of low educational achievement for both parent and child. The target population in question tends to have family histories with a high reliance on welfare, high number of teen births, large number of single parent families, limited life and study skills, and no attachment to lifelong learning or higher education that might include an introduction to computer technology.

The CSKT administration has recognized the importance of linking Tribal members to both telephones and to computer technology, but has not had the funding to cover estimated costs at even the most basic modest monthly rates.
